HEIFER PROJECT

We will have the first collection for the Heifer Project on **October 16**, so please bring in your donations to date. The kids are looking forward to seeing if they have enough to earn part of the cow.

Sunday School will also be hosting a bake/soup sale on **November 6**. If you would like to make something, please sign up on the pre-school classroom door in the Narthex. Items need to be wrapped and ready for sale starting at 9:00 am November 6. Items can be dropped off and labeled in the kitchen prior to the sale. All proceeds from the sale will benefit the Heifer Project. Any questions please contact Lena Sheaffer, Lena@psu.edu

Dr. Jonathan Sarfati was born in Ararat, Australia in 1964. He moved to New Zealand as a child and later studied science at Victoria University of Wellington. He obtained a B.Sc. (Hons.) in Chemistry. His Ph.D. in Chemistry was awarded for a thesis entitled 'A Spectroscopic Study of some Chalcogenide Ring and Cage Molecules'. He has co-authored papers in mainstream scientific journals on high temperature superconductors and selenium-containing ring and cage-shaped molecules. He also had a co-authored paper on high-temperature superconductors published in Nature when he was 22.

Dr. Sarfati has been a Christian since 1984. He has long been interested in apologetics, the defense of the faith, and was a co-founder of the Wellington Christian Apologetics Society (New Zealand). Creation vs evolution is of course a vital area, because of the ramifications for the doctrines of Creation, the Fall which brought death into the world, and their links to the doctrines of the Incarnation, Atonement and Bodily Resurrection of the God-man Jesus Christ. In 1999, his first apologetics book was published—Refuting Evolution, which countered a teacher's guidebook by the National Academy of Sciences: Teaching about Evolution and the Nature of Science. The book now has 450,000 copies in print. Dr. Sarfati is also a Master chess player.
